INTERESTED IN K-12 SCIENCE OR MATHEMATICS TEACHING CAREERS?

Apply for a PAID Summer Undergraduate Research Assistantship

The Maine Physical Sciences Partnership (MainePSP) invites applications from undergraduates in Maine to participate in a 7-week program on the University of Maine campus during the summer of 2014. Students will work on a team with K-12 teachers preparing for the 2014-2015 academic year by learning about and critiquing lessons from the MainePSP instructional resources being implemented across 31 middle and 12 high schools in Maine. Students will also be involved in MainePSP research projects investigating teaching and learning. Salary is $750/wk.
